Extension Request for Submittal of Groundwater Monitoring
Well Installation Report
Site Located at 3705 Gravenstein Highway South, Sebastopol, CA

Dear Darcy:

SOMA Environmental is planning to install the off-site groundwater monitoring wells for the subject site on December 20, 2005. As you are aware, it took a while before we received a signed access agreement from the off-site property owners for drilling on their property. As a result, we could not install the wells as planned. Therefore, we request to extend the submittal of our groundwater monitoring well installation report until January 27, 2006.

Your kind consideration of extending our report submittal date is highly appreciated. Meanwhile, please do not hesitate to call me at (925) 734-6400, if you have any questions or comments.

Sincerely,

Mansour Sepehr, Ph.D, PE
Principal

cc: Mr. Chris Ghanayem
